

Advanced power measurment setup

V1.0 I

Date: 2025-03-27

Tags: AE Additive manufacturing 3D print Power measurement photoreactor

Category: Equipment

Created by: Alexander Eith

Titel

Advanced irradiation setup V1.0 I

Table

Device name	Advanced power measurment setup V1.0 I	
Model number	V1.0	
Manual	/ Building description + files for printing: Photoreactor - AE-431: Print and Setup of advanced power measurement setup V1.0	
Location	CEEC I 208	
Name in Instruments Calendar	/	
Introduction	Alexander Eith	
Responsible Person	Alexander Eith	
Protocol on usage of the device	Protocol - Determining power output in the Advanced irradiation setup V1.0 I	

Additional Information	<i>handel it carefully only for power measurment, noting else can be used outside a irradiaiton setup don´t use longer than 1 min on high power settings to avoid overheating</i>
Status from	27.10.2025

Notes:

* adding pictures of installed irradiation set-up, not just the box
